OBAFEMI AWOLOWO UNIVERSITY, ILE-IFE.

DEPARTMENT OF MATHEMATICS.

STT 201 TEACHING SCHEDULE

FOR HARMATTAN SEMESTER, 2021/2022 SESSION.

Duration	Topics	Lecturer
17th Jan. – 4th Feb.	Nature and scope of statistics. Populations, samples and inductive processes. Classification of data – scales of measurement, etc. Tabular representation of data, diagrammatic representation of data – pie, bar charts, histogram, ogive, stem and leaf plot.	Dr. I. O. Ayodeji
7th Feb. – 16th Feb.	Combinatorial analysis; discrete and continuous distributions - Poisson, normal, t, and F distributions.	Prof. A. K. Olapade
17th Feb. – 2nd Mar.	Measures of location and dispersion.	Dr. A. A. Olosunde
3rd Mar. – 23rd Mar.	Inference about population means, proportion and variances. Estimation. Tests of significance. Comparison of two means. Analysis of variance.	Mr. A.R. Babalola
24th Mar. – 7th Apr.	Correlation and regression. Time series, Demographic measures and index numbers.	Dr. S. O. Ezeah

Thank you.
